

2019 Pillar Awards

The Corporate Pillar Awards recognize participating companies who have presented on their company, products, services, and strategies.

Our Pillar companies who have reviewed those companies are asked to identify the top 25% of those presenting organizations, those who have made the most favorable impressions.

Over the course of 2019, the Pillars have reviewed 12 companies (only two sessions held due to start in April 2019). As such, 3 companies will be identified.

However, over a full year (2020 and beyond), there will be 24 companies presenting and the Pillars will be asked to identify 6 companies.

The presenting 2019 companies who will be considered by the Pillars are:

Round 1:

Ario
Jigsaw
DroneUp
HASHTIV
ZZ Servers
Array Digital

Round 2:

Avid
Marathon Consulting
Hoist Cam
757 Makerspace
On Call Telecom
Globalinx

Pillar organizations as asked to select 3 companies from the list of 12, for award recognition.

The Pillar Awards will be a brief ceremony (with trophy's) at HRIC's Tech Expo held in the fall of each year. The 2019 Expo will be on 9/11/19 and held at ODU's Ted Constant Center in the Big Blue Room.
