

HRIC's Tech Tuesdays

Version 11-13-20

- Given the impact of COVID-19 in 2020, HRIC's Tech Expo was cancelled.
- The lineup for the 2020 Expo had a keynote speaker and several sessions: Cyber, Unmanned Systems, Renewable Energy, Augmented Reality, Artificial Intelligence, Maritime, CIO Panel, Digital Shipbuilding and Open Seas.
- To maintain positive momentum, HRIC is launching a virtual series of speaker and panel events with the original lineup intended for its 2020 Expo. We call that series **Tech Tuesdays**.
- Tech Tuesdays** will be live, 1-hour lunchtime Zoom sessions with chat interaction for Q&A at the end.
- Sessions will be live and recorded.
- We'll attempt to run these sessions monthly, but schedules may vary due to speaker availability.
- A Sponsor Showcase (remarks or sponsor clips) will allow participating HRIC sponsors up to a 5-minute presentation.
- If HRIC Membership is of interest, we offer the following incentives:
 - Attendance to all 10 webinars = 25% discount on HRIC \$100 membership (\$75 total membership fee for 2021).
 - Attendance to 7 webinars = 20% discount on HRIC \$100 membership (\$80 total membership fee for 2021).
 - Attendance to 5 webinars = 15% discount on HRIC \$100 membership (\$85 total membership fee for 2021).
- Check out what's included with your HRIC membership at: <https://technologyhamptonroads.com/why-join/>
- Eventbrite Registration: <https://www.eventbrite.com/e/hric-tech-tuesdays-tickets-129002890117>. Registrants will receive a Zoom link via email two days before the session.
- Then, if COVID-19 under control, we'll resume our Tech Expo Event in Sept/Oct of 2021!**

Session 1: Tuesday: November 10, 2020
Noon – 1pm
Topic Global Innovation
Keynote By: Dr. Bartosz Wojszczyk
President & CEO Decision Point Global

Session 2: Tuesday, December 15, 2020
